Update from the BBE President – Patti Sansing

Just a quick spring update. We have begun to plan the annual meeting and we have set a tentative date of July 10th. Packets will be on their way in June. Also, we're hoping to start planting in the garden Memorial Day weekend if we can get it rototilled by then. Otherwise, it may be the following week. Anyone interested in helping with planting, weeding and/or watering, please join in. The garden veggies are for all residents. Another load of topsoil was just delivered and it will be rototilled soon.

Also, we are planning our 3rd annual yard sale. It will be **Saturday, June 12th 8-1pm**. The more families that participate the better. Please let us know if you will be participating. For new owners that are interested in participating, we normally just set up in our own driveways. We put up signage around the complex, at the entrance on Rte 191 and we place an Ad in the local paper.

As you can see, Adam has removed a number of large trees at the entrance and along the back path. These trees were dead or dying and this really needed to be completed. The stumps have been ground up and will eventually be cleared away.

We look forward to seeing everyone at the annual meeting. As always, we're looking for new recruits for the Association Board...something to think about. If you think you might be interested, let us know!
